

ME FLOOR

## SLATS +

This innovative system empowers users to tailor their walls to meet their unique needs and preferences, whether in a home or office setting. Slats+ is not just a stylish addition to your decor; it's a transformative solution that evolves with you, offering endless possibilities for organization and display.

# ME FLOOR

Slats+ [Slats Plus] resulted from the collaboration between ME Floor and designer, Ben Phua. Slats+ redefines the classic slat wall cladding by infusing it with unparalleled versatility and functionality. Unlike traditional slat walls, which are often limited to aesthetic enhancement, Slats+ transforms your space into a dynamic and customizable environment. With a range of add-on components—such as display shelving, storage cabinets, TV mounts, coat hooks, and picture frame hooks—Slats+ allows for effortless rearrangement and personalization without the need for permanent installations or tools.

Material : Repurposed Yellow Balau / Meranti Battens, plywood back, Repurposed White Oak Engineered Wood

Dimension : Wall panels 2' x 4'; Portable modules e.g., cabinets, open shelves, lighting elements, shelving units, hooks, etc.
